

Digital Literacy for Teachers

Course Description

This module is for teachers to build their capacity for using digital resources.

This module will explore digital resources that are most useful in education: Digital resources for education are classified into the following categories:

For Teachers

To Support Lesson Delivery

For Students

Tools and Context

This module provides an online template for creating documents that describe digital resources in these terms. The module provides links to online resources that participants will explore, then use the online template that prompts them to create a document with ideas for using the resource. The documents are designed to be shared with colleagues.

Work Products: Documents describing digital resources and suggestions for using them.

Professional Teaching Standards Alignment
